## Her Majesty The Queen's Aircraft Arrives in Mogadishu

**Mogadishu, Somalia** – It was with great pride and honour that SKA International Group received and processed Royal Air Force (RAF) Boeing C-17 Globemaster No ZZ177 in Aden Adde International Airport (MGQ/HCMM), Mogadishu on Saturday 17th September 2022. This aircraft, now back to regular duty for the RAF, had four days previously been the most tracked aircraft ever on Flightradar24.com, as it transferred Her Majesty The Queen on her final flight from Edinburgh to London. Should a reminder of this auspicious event be required, view the photograph upside down.
